

17" Rackmount Flat Panel Monitor

Features

- Bright 17" SXGA display
- Standard 15 Pin VGA input
- Optional DVI Input
- On Screen Display (OSD) controls
- Optional S-Video/ Composite Video Inputs
- Standard 19" Rack mount
- Highly visible 500:1 Typical Contrast Ratio
- Optional precision touchscreen

Specifications

Viewable Size Image	17"	VGA Input	1x 15 pin D-sub
Active Display Area	337.92 (H) x 270.34 (V)	DVI Input	Optional DVI-D, Single Link
Pitch	0.264 (H) x 0.264 (V)	S-Video Input	Optional 4 pin Mini-DIN
Number of Pixels	1280 x 1024 (SXGA)	Composite Input	Optional RCA Connector
Contrast Ratio	500:1 (Typical)	Touchscreen	Optional Resistive, Capacitive, SAW
Display Color	16.2 M (6 bits + FRC)	PC Video Modes	VGA, SVGA, XGA, SXGA
Brightness (cd/m ²)	300 (Typical)	Power Management	VESA DPMS Compliant
Viewing Angle (CR>=10)	-75~75° (H); -60~70° (V)	Plug & Play	VESA DDC 1/2B
Response Time	5 mS	Power	AC100~240V, Universal, +/-10%
Synchronization Range	64.0~80.0Khz / 6~75Hz	Dimensions	484x354x127.5mm (19.1x13.9x5.0")

ICE Computers designs and manufactures rugged computing solutions including Rackmount, Flat Panel Touchscreen, Panelmount, and Embedded Computers built to withstand challenging environmental and operational conditions. Our products incorporate the latest technology from ultra low power to high performance processors utilizing energy efficient power supplies and can be customized to meet your specific application
